L’Institut Français de Langues et de Services

est une école privée à dimension humaine

un vrai lieu d’échanges culturels

pour permettre une meilleure compréhension entre les personnes

Vos progrès sont au centre de nos préoccupations

En 2015, L’Institut Français de Langues et de Services a obtenu le label QUALITE Français Langue Étrangère. Cette démarche permet d’identifier et de reconnaître nos formations et nos prestations comme présentant toutes les garanties de qualité attendues par différents Ministères (de l’Enseignement Supérieur, de l’Éducation nationale, des Affaires Étrangères, de la Culture et de la Communication).

L’IFLS est une petite structure s’adaptant avec souplesse à toute demande. Toutes les formations sont élaborées « sur mesure », en fonction de vos besoins et de vos attentes. Cette faculté d’adaptation a permis la mise en place de programmes spécifiques.

L’IFLS est dans une démarche de QUALITE où rapidité et efficacité sont des priorités.

Notre enseignement des langues est fondé sur une approche pratique, ludique et conviviale avec des mises en situation.

Vous êtes actifs et non passifs. Le rôle du professeur consiste à vous guider et à vous donner les éléments nécessaires pour comprendre. Les cours et les stages mettent en œuvre 4 compétences (expression orale et écrite, compréhension orale et écrite) au cours de nombreuses activités.

Toutes les formations suivies dans notre centre sont assorties d’une rééducation de l’oreille. Dédiée à l’oral, votre prononciation, votre accentuation et votre compréhension en seront durablement améliorées.

L’équipe, menée par Valérie RASPAUD, Directrice, est composée de professionnels partageant la philosophie de l’IFLS : 2 Responsables pédagogiques, 1 Assistante Administrative, 7 à 12 professeurs, des Accompagnateurs pour les groupes.
LEARN or IMPROVE YOUR FRENCH
In the heart of France South-West!

Since its creation, IFLS has always been concerned with their students’ progress in languages. We all know how difficult it is for each one of you to learn French grammar and vocabulary, to understand and to speak French. What about the habits and customs of the French people?

That is the reason why IFLS offers an educational training which is tailored to your needs. Our methods and tools have been carefully selected to meet your requirements. Our education is dynamic and functional.

At the forefront of language teaching, IFLS is equipped with an auditory stimulation process which makes language learning easier and faster. Our school is a certificated center: "FLE (French as a Foreign Language) QUALITY” certification.

Learning a foreign language is not just about its structure and vocabulary. It goes as far as understanding the culture and civilization of a country.

Foreign students who choose to come to France have to learn French quickly to fully participate in the French life. This is essential for future success in their studies.

Since 1998, a partner to École Polytechnique - one of the most prestigious French engineering schools - IFLS has developed specific training for foreign students in the form of immersion or semi-immersion programs.

“Voice can reproduce only what the ear hears perfectly”

If each language is characterized by its rhythm and musicality, it also contains its own dominant frequencies.

“If the hearing is modified, then the pronunciation is unconsciously and immediately modified”. You will learn languages easier and faster.

In a very short time (ten hours), listening comprehension will improve dramatically. Pronunciation becomes more fluid. Articulation is facilitated. SpeedLingua develops auditory memory and allows you to speak with pleasure, without any hindrance.

Thus stimulating your inner ear to the specific frequencies of the language you learn (listening and repetition drills), this unique process will revolutionize your language learning. You will be surprised to discover that most of your problems (understanding, pronunciation, inhibitions...) are in fact related to your inner ear.

IFLS includes SpeedLingua to almost all their training courses:

- 2 minimum one-hour sessions per week (days and hours at your convenience)
- 15 minutes’ listening to specific music which contains the frequencies of the selected language
- 45 minutes’ listening and repeating drills (5,000 words and expressions)

Languages: English, aviation English, American, Italian, Spanish, German, Dutch, Chinese, French as a Foreign Language, Russian...
DISTANCE LEARNING

You cannot come to France to study French,
You are not available at all times,
You want to get prepared before your arrival,
You are interested in some training sessions only,

We can provide distance learning, this not exclusively in French language

Conversation by webcam

You can converse in the language of your choice with a native speaker. It is the perfect complement to training or continuing language practice on your own. At A2 level.

- **Rate**: 30-minute session (10 sessions minimum)
- **Teacher**: 1 file with video presentation, planning, availability, skills and experience
- **Appointment**: according to the teacher’s schedule
- Possible courses with several trainers (after 20 sessions)
- **Continuous assessment**: 40 language criteria related to 5 items (fluency, listening comprehension, vocabulary, grammar and the culture of the country). Continuous improvement scorecard.
- **Validity**: 1 year

Just speak! You will improve your level, become confident and start speaking fluently.

Now, no excuse! Just practice your chosen foreign language!

FLE QUALITY CERTIFICATION

French as a Foreign Language Quality Certification

The French State has initiated providing high quality educational certification to some French centers teaching foreign languages in France.

Each year, more than 100,000 people come to France to attend French courses. Nearly 300 centers of the most varied statutes - public, private, voluntary – provide such services. The need for a clear catalog based on validated criteria facilitating the students’ choice, was legitimately considered as necessary by individual users as well as by the French diplomatic posts which are in charge of the foreign public users.

This is the reason why the Ministries of National Education, Higher Education and Research (Higher Education Directorate), Foreign Affairs (General Directorate for International Cooperation and Development) and Culture and Communication (General Delegation for the French language and the Languages of France) have given CIEP responsibility for the certification implementation of French language centers on the French territory.

This approach has enabled to identify, recognize and promote the schools in which language provision and related services offer the guarantees required for high quality teaching. Nowadays, language centers in France that teach French to a foreign audience and meet a set of objective criteria may be issued French as a Foreign Language Quality Certification.
IFLS is situated near Villeneuve-sur-Lot town center, in front of shops and fast food. It is well connected by public transport and a cycling path. Bicycles are available to students to move freely in the city. Free unlimited Wi-Fi. Air conditioned rooms. Kitchen equipped with microwave ovens and refrigerator. Car park + Bicycles...

Villeneuve-sur-Lot is a charming thirteenth century Bastide of 24,000 inhabitants. The town has remained very dynamic and is rich with numerous historical remains. The size and density of its city center allow foreign students to easily mix with the population, this with the help of IFLS administration, teaching team and host families. Our international students are fully immersed.

Villeneuve-sur-Lot, Lot-et-Garonne sub-prefecture, has a central geographical position in the South-West: it is the starting point for all tourist visits to the Dordogne, the Lot - a region of Bastides - the Albret and Bordeaux vineyards.
